

Shikhar Shaurya

shikharshauryarajput@gmail.com • [LinkedIn](#) • [GitHub](#) • [LeetCode](#)

Summary

B.Tech CSE student with experience in Frontend Development, Data Analysis, and Machine Learning. Skilled in JavaScript, TypeScript, React, Redux Toolkit, and REST API integration. Experienced in building scalable web applications, real-time collaborative systems, and data-driven solutions with a strong foundation in DBMS, Operating Systems, and Computer Networks.

Education

GLA University, Mathura, India

Aug 2023 – Aug 2027

B.Tech in Computer Science

CGPA: 8.27

Relevant Coursework: Data Structures, Machine Learning, Probability & Statistics, DBMS, Operating Systems, Computer Networks

Work Experience

Skillcred

Jun 2024 – Jul 2024

Data Analysis Intern

- Conducted in-depth analysis of 1000+ smartwatch usage records, identifying patterns that improved device efficiency by 15%.
- Cleaned, transformed, and validated structured datasets using Excel and Python (Pandas), boosting accuracy by 30%.
- Created visual reports and presented actionable insights to stakeholders, supporting data-driven decision making.

Devslane

Jul 2025 – Jun 2026

Frontend Intern

- Developed and deployed responsive web applications using React, TypeScript, and Redux across multiple application modules.
- Integrated REST APIs and engineered dynamic frontend features to improve user interaction and data accessibility.
- Improved code quality and maintainability by implementing modern frontend practices and Git-based version control.
- Collaborated with a small development team to troubleshoot issues, optimize components, and deliver scalable solutions.

Projects

RoomIDE - Real-Time Code Editor

Tools: React, Node.js, Socket.io, Monaco Editor

- Developed a browser-based code editor supporting real-time collaboration for up to 10 concurrent users.
- Integrated a multi-language compiler supporting code execution in 5 programming languages.
- Implemented syntax highlighting, code formatting, and real-time synchronization across connected users.
- Leveraged WebSockets (Socket.io) for low-latency communication and collaborative editing.

Technical Skills

Languages: JavaScript, TypeScript, Java, Python, SQL, HTML, CSS

Frameworks/Libraries: React, Redux Toolkit, Node.js, Express.js, Tailwind CSS, TensorFlow, Scikit-learn, Pandas, NumPy

Concepts: REST APIs, DBMS, Operating Systems, Computer Networks, Machine Learning, Deep Learning, NLP

Tools: Git, GitHub, Postman, VS Code, Chrome DevTools, Jupyter Notebook, MS Excel

Certifications

- Intro to Deep Learning — Kaggle
- Deep Learning with Keras and TensorFlow — ULSA
- Introduction to Deep Learning & Neural Networks with Keras — IBM
- Introduction to Large Language Models — Google

Achievements

- 3rd Place – IBM Aptitude & Coding Challenge (March 2024): Ranked among top participants in aptitude and coding rounds.
- 3rd Place – IBM Poster-Making Competition (March 2024): Presented data-driven ideas evaluated for clarity, impact, and creativity.
